Subject: Ambient air TCE concentrations in R9

Clancy, In response to our discussions over the past couple of days about ambient air TCE concentrations I took a closer look at the TCE data in ARB's California air monitoring program, Phoenix data from the JATAP program and some summary data discussed in the revised IRIS Toxicity Assessment on TCE. I have summarized this info in the attached one-pager (TCE ST ALs & Ambient R9 TCE_May13) – you might find it interesting reading.

Gerry

P.S. I have also attached a summary of the ARB data (Calif TCE 1989-2011 Summary_ARB.pdf), selected pages from the IRIS TCE Tox Assessment (Outdoor TCE_IRIS Tox Rev_Sep11.pdf) and my presentation to the M52 CIG on the JATAP data (Phoenix Amb Air_M52 OU1_Sep11final.ppt – see slide 10).
